**Street Racing Syndicate widescreen fix**

[Download](#)

---

Nov 30, 2008 (Do not search by the model of your car. Press - instead. This can cause an error.) Street Racing Syndicate (1.5.4.0) Take out a loan to get started. Press Right: Grants free repair and new car. Press Left: Enter the Sub Dealer, and use the Code from Level 1 to get back to the street. Enter store, click the picture of the guy, and use the code for "Funeral Parlor", then click the "T" key and enter "8" to use the store. Enter the Sub Dealer, and use the code from Level 4 to get back to the street. Now the "Store" is only open for 30 minutes. To delay this function you need to go to the Funeral Parlor and click the button with a 9 on it. After 30 minutes, if you did not get a new car, enter the Funeral Parlor, use the code for 'Funeral Parlor' again, and repeat it with the '8' key. If you get the new car, go back to the Sub Dealer and select it for a 1star on all levels (Axe and all) to get the top score. Is the "Store" a necessary function? No, but it's a fun way to make a team of stock cars and beat off all the other teams with your favorite model without having to go to the dealer and buy anything new. Some trainers may be deleted from the game after the initial updates. If this happens, you will need to install the "Street Racing Syndicate Trainer" (remove all other items, including the 8/8 code, from the game first). Thank you. [ X ] ( GIVEN ) PRESS First time you are pulled over in traffic driving, you will be told to 'Leave the street for now' to get a warning. Paying a fine or talking to a cop will not cause your car to breakdown. [ ] ( NOT GIVEN ) Each time you are pulled over, you will have to pay a fine. [ ] ( NOT GIVEN ) To get the warning about your car's condition when you are pulled over, use a car that does not need repairs. You can set your car to repairable, but you will have to pay for them. Press [ ].
